

SNAP & SHARE

Top tips for capturing moments with the people we support.

1. LIGHTING IS KEY

Use natural light. Avoid harsh shadows or backlighting for clear, warm faces.

2. EYE-LEVEL PERSPECTIVE

Get down to their eye level. Builds connection and respect for a personal touch.

3. MAKE THEM SMILE

To get that great picture, encourage a natural smile. They could even hold something with them in the photo to feel comfortable.

4. SHOW FOR APPROVAL

Once you have taken the picture, show the person and see if they are happy with it before sharing.
